01

- The Table / The Circle anchoring set

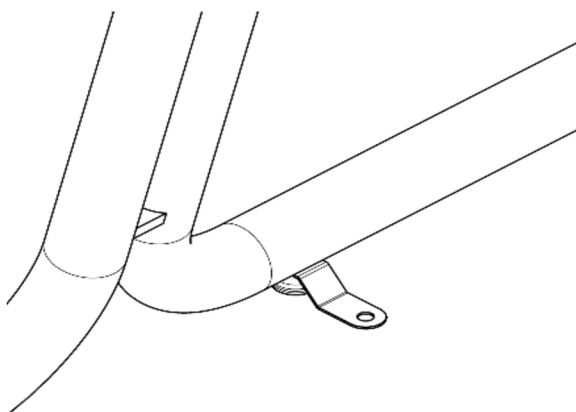

02

- Fix the stainless steel bracket to the levelling foot

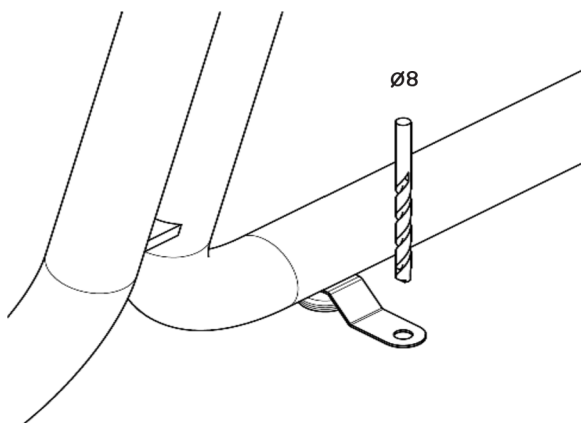

03

- Mark where the hole should be drilled

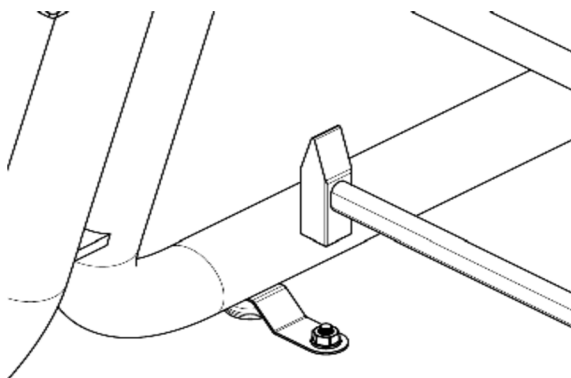

04

- Drill an 8 mm hole in the solid surface

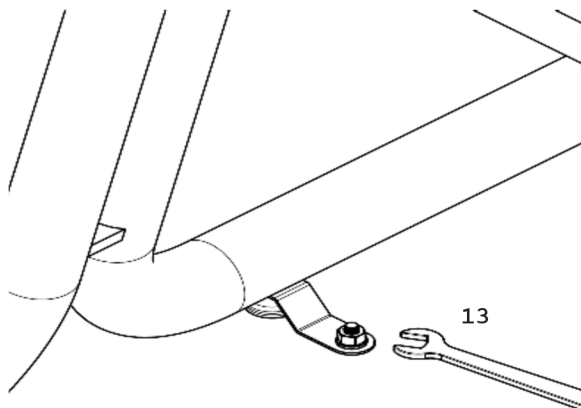

05

- Tap the concrete anchor into the ground with a hammer

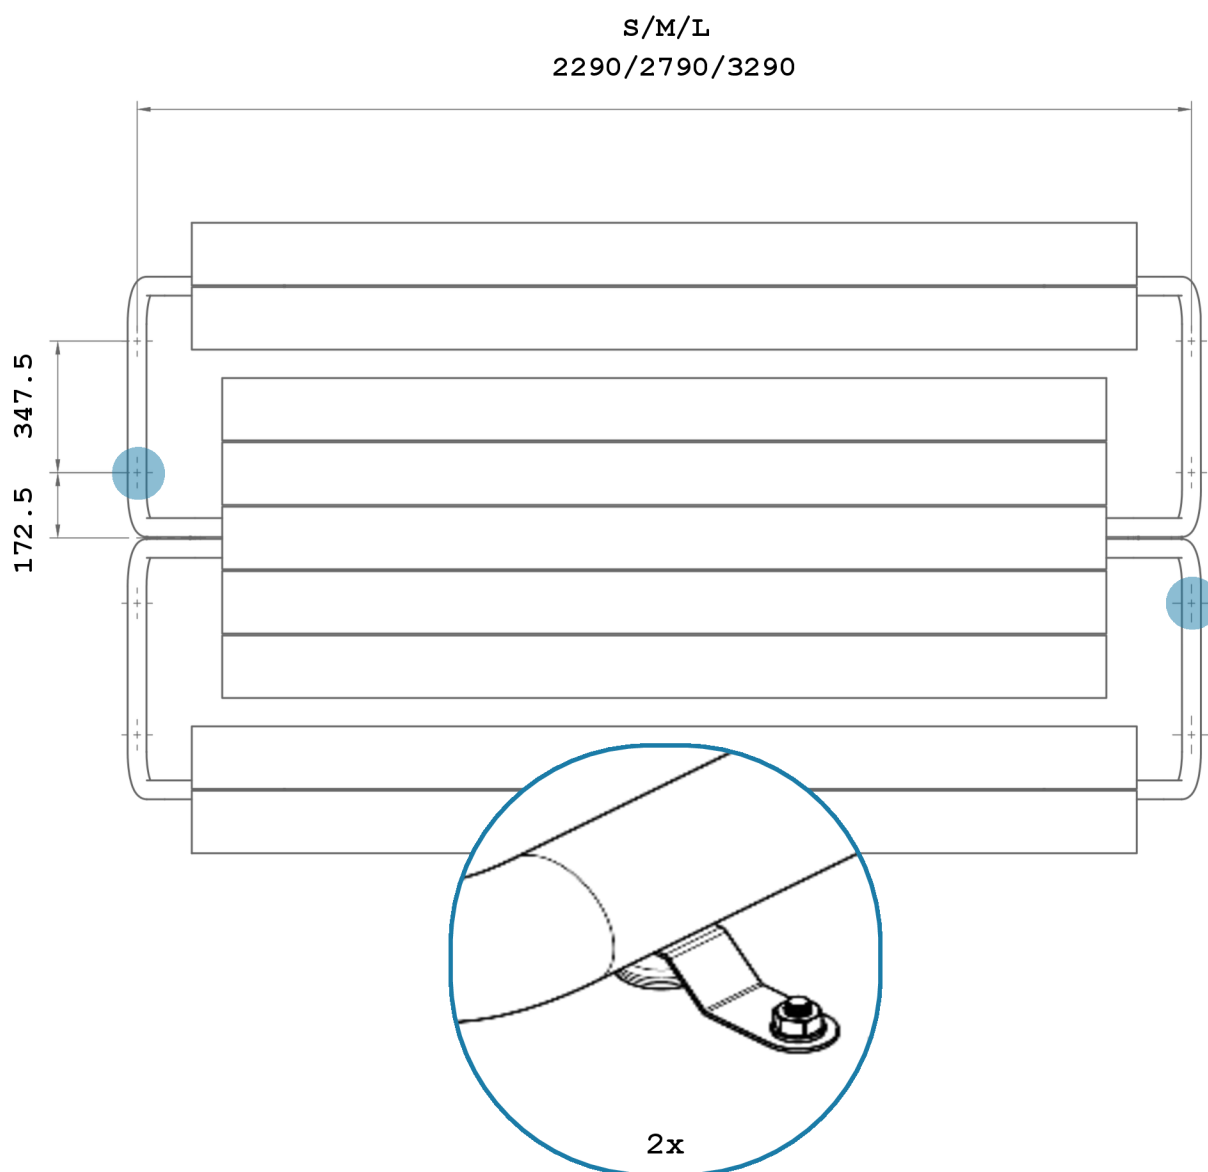

06

- Tighten the ground anchor securely

**Important:**

The actual dimensions may differ slightly from these theoretical dimensions. Make sure The Table is at its final position before you start drilling holes in the surface.
