

THE DISC

Simple, robust and stunning. The Disc has a special 'je ne sais quoi' that is hard to ignore. The lamp was originally designed to go with The Table and The Circle. But it lights up any other table just as nicely. Available in yellow and grey.

MATERIALS

The Disc features a powder-coated aluminium shade, supported by two stainless-steel arms and a stainless-steel suspension cable. These materials provide strength and durability for outdoor use. The IP65-rated lamp holder provides protection against dust and water ingress. Robust materials and a simple construction give The Disc its characteristic refined silhouette.
